

EXOSET SAFETY LIFTING CLAMPS

SAFE, STRONG, & EASY TO USE!

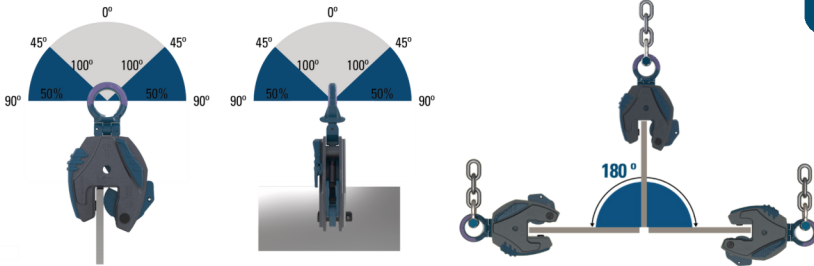

Exoset Universal Vertical Safety Lifting Clamps

The ultimate solution for secure and efficient vertical lifting. Combining innovative safety features with robust design and ergonomic handling, Exoset clamps redefine lifting operations.

Trust the Experts with SpanSet Exoset Safety Lifting Clamps.

APPLICATIONS

- Vertical Lifting of plates and sheets
- Turing plates (180°)
- Moving and transferring fabrications

KEY FEATURES

- **Max WLL Indicator:** Clearly visible on both the hoisting eye and the grip, this indicator allows for quick and easy identification of the maximum load capacity, enhancing safety and preventing overload.
- **Overload Indicator:** This visual warning system activates when the clamp is overloaded, immediately alerting the user to a potentially dangerous situation.
- **Lightweight & Robust:** Constructed with welded bodies and high-quality Naxtra steel, Exoset clamps are both strong and easy to handle, reducing operator fatigue.
- **Easy Latch:** The improved and enlarged latch design allows for effortless opening and closing of the clamp, enhancing efficiency and ease of use.

SPECIFICATIONS

- 0.5t - 5t Capacity
- Compatible with up to 364 HV hardness
- -40°C to 100°C operating range
- 2,000,000 Load Cycle tests
- Breaking Load Limit 6x WLL
- RFID Equipped
- DNV Certified
- 5 Year Warranty
